Boise, ID

Summary: Experienced military veteran with the ability to work well with all personality types . History in avionics system maintenance and repair. Able to pick up concepts quickly and can easily pass that knowledge on to peers. Team oriented mindset with ability to be flexible and adapt to team's demands. Eager to learn more and keep expanding on programming language toolkit.

Skills Profile:

- JavaScript
- CSS
- Vue
- C#
- Mongoose
- SQL

Applications:**KanBan**

- Application for creating and organizing tasks
- Built the application using Vue for the front and a MongoDB on the backend. Was a rewarding project to complete and helped illustrate how truly useful applications can be built using Vue. Also learned a lot about partner programming and the pros and cons that come along with it.

BugLog

- Application for tracking bugs. Users can create new bugs and close bugs once they are resolved.
- BugLog was built with a Vue front and a MongoDB backend. It was a solo project so experiencing the entire process of building an app front to back was very rewarding.

Experience:**Boise CodeWorks 02/2021 - 05/2021**

- Utilized Vue to build front end applications
- Worked as a team using Scrum methodologies
- Utilized test driven development to create SQL backend applications
- Learned pillars of object oriented programming and how to apply them to applications

Continuum Global Services 06/2019 - 09/2020**Technical Support Representative**

- Over the phone technical support for Verizon Wireless customers
- Navigated multiple programs while talking to customers to help them resolve equipment/service issues
- Continually met or exceeded goals for different call metrics
- Performed remote troubleshooting for customer cell phones and internet devices

Lowe's Home Improvement Store 01/2017 - 06/2018**Loader/Unloader**

- Unloaded freight trucks and sorted contents by department to be moved to the sales floor
- Performed basic retail associate tasks (stocking, selling, zoning, etc.)
- Operated power equipment (forklift, narrow aisle reach truck, order picker) for moving/stocking freight
- Provided new employees with on the job training

United States Navy, Jacksonville FL and Kaneohe HI 04/2011 – 11/2016**Work center supervisor/Collateral duty inspector/Aviation electronics technician**

- Performed micro miniature repairs on electronic assemblies such as circuit cards
- Performed troubleshooting on aircraft electronic assemblies
- Performed troubleshooting and repairs on cable assemblies
- As a Collateral Duty Inspector, performed quality assurance checks in the work center
- As work center supervisor was in charge of managing junior sailors' schedules
- In charge of periodic evaluations for junior sailors
- In charge of prioritizing tasks and managing workload
- In charge of maintaining standards of Naval Aviation within the work center
- Conducted periodic counseling and training for junior sailors

Education:

Certificate of Completion, CodeWorks (2020) - Full Stack Software Development
